

5 A)Engineered Non Wood (Bamboo etc.) Composite Strip Board for flooring 15mm thick :																
Providing suppling, fitting and fixing in position phenol bonded , Engineered Non Wood (Bamboo etc.) fire retardent, U.V.Resistant, weather proof as per IS 13958:1994 horizontal Strip Board for flooring in size 960 mm length, 96 mm wide and 15 mm thick in approved colour, texture and finish,the Engineered Non Wood (Bamboo etc.) composite planks shall have minium density 1000 kg/Cum & Minimum hardness 1000Kgf conforming IS 9096-2006,laid with toungue and groove interlocking system with underlayment of one layer 4 mm thick expanded polyethylene foam sheets and one layer of thin plain polyethylene sheets over existing prepared surface all complete including preparation of surface & finished with approved quality primer as per direction of Engineering-in- Charge. (Excluding GST & Labour welfare cess) .	Sq.m.	4810	4810	4810	4810	4810	4810	4810	4810	4810	4810	4810	4810	4810	4810	4810
B)Engineered Non Wood (Bamboo etc.) Composite Strip Board for skirting 15mm thick :																
Providing suppling, fitting and fixing in position phenol bonded , Engineered Non Wood (Bamboo etc.) fire retardent, U.V.Resistant, weather proof as per IS 13958:1994 horizontal Strip Board for skirting in size 960 mm length, 96 mm wide and 15 mm thick in approved colour, texture and finish,the Engineered Non Wood (Bamboo etc.) composite planks shall have minium density 1000 kg/Cum & Minimum hardness 1000Kgf conforming IS 9096-2006,laid with toungue and groove interlocking system with underlayment of one layer 4 mm thick expanded polyethylene foam sheets and one layer of thin plain polyethylene sheets over existing prepared surface all complete including preparation of surface & finished with approved quality primer as per direction of Engineering-in- Charge.
